• **Agenda Item No. TS-200.08:**

**Proposal of M/s. Wells Fargo International Solutions Pvt. Ltd, units in M/s. Divyasree NSL Infrastructure Pvt. Ltd, SEZ for IT/ITES at Raidurg Village, Serilingampally Mandal, Ranga Reddy District, Telangana for approval for usage and sharing of infrastructure (VPN facility) by the below units in pursuant to Rule 27 (5) of SEZ Rules, 2006.**

M/s. Wells Fargo International Solutions Pvt. Limited was issued Letters of Approval as under:

S. No.	Name of the Units	Formal Approval/Letter of Approval and Date	Date of commencement of operations	LoA validity
1	M/s. Wells Fargo International Solutions Pvt. Limited (u-1) in M/s. Divyasree NSL Infrastructure Pvt. Limited SEZ	9/024/SEZ/HYD/2008 dated 9.6.2008	14.7.2008	13.7.2028
2	M/s. Wells Fargo International Solutions Pvt. Limited (u-3) in M/s. Divyasree NSL Infrastructure Pvt. Limited SEZ	9/462/SEZ/HYD/2019 dated 30.9.2019	24.2.2020	23.2.2025

The unit vide letter dated 16.10.2023 has stated that the company operates out of various SEZ units in the country which are located in Bangalore, Hyderabad and Chennai.

Earlier, each SEZ location of the company was using its own infrastructure (including circuits, routers and other transmission equipment) to export services to its overseas customers which created certain operational inefficiencies. Therefore, the company intended to address this challenge by availing co-location, IT management and cyber security services from a third-party service provider, situation at common infrastructure facilities in

Mumbai (located within a SEZ) and Chennai (located in DTA) as provided in detail in their letter dated 25.8.2021. In their above letter, the unit has requested for approval for usage and sharing of the infrastructure facilities, set up by the third-party vendors which were approved vide VSEZ letter dated 4.10.2021.

In addition to the above mentioned infrastructure facility, they wish to submit that the company has a Virtual Private Network gateway infrastructure (VPN) ensuring a secured connection in transmission of the data, set up in the SEZ unit itself. Any employee of the company who works from outside the SEZ unit (as being permitted vide issuance Rule 43 (A) of SEZ Rules, 2006) needs to connect the SEZ unit network through the VPN (currently set up within the SEZ unit of the company). It may be noted that the VPN facility is merely to provide a secured access connection to the network infrastructure facility located at the third-party co-location centre.

To be able to create a common VPN facility to which all SEZ units of the company can connect, so as to creating more efficiency in the data transmission, the company is now proposing to shift this VPN equipment to the co-location infrastructure facilities located in Mumbai (Yotta) and Chennai (Nxtra).

The unit has also stated that the assets installed in the collocation infrastructure facilities located in the SEZ (Yotta) and DTA (Nxtra) which will be accessed through the secured VPN equipment, are procured by the Hyderabad SEZ unit upon payment of the applicable duties/taxes. They have also stated that the company has full control over the said infrastructure facilities set up by the third-party vendors. Such infrastructure facility can be accessed by the SEZ units remotely. Accordingly, any data transmitted through the COLO can be effectively said to have been undertaken by the SEZ units of the company, even when employees are working from home. While the infrastructure facilities are located at third party sites, the company has full control over the same and hence, the services provided by the company should be considered to have been provided from the SEZ units itself in accordance with Section 2(m) of SEZ Act, 2005 and Rule 45(3) of SEZ Rules, 2006, irrespective of the location of the employees and the VPN facilities. The VPN equipment is merely to provide a secured access to the collocation facility and the same does not impact the manner of provision of export of services by the SEZ units.

The unit has also stated that upon shifting the VPN equipment to the collocation sites, while the data transmission shall be routed through the networking equipment set up at the said facilities, the office premises of the company located in the SEZ shall be connected to both the infrastructure facilities through the network at the SEZ units itself. Accordingly, on the days the employees are working from office, they shall be connecting to the infrastructure facilities from the SEZ units itself.

In view of the above submissions, the units have requested to grant approval/clarification that the services provided by the SEZ units to its

overseas group companies shall continue to qualify as export of services, even when the employees working from home connect to the VPN equipment located at the third-party co-location facility for providing the services.

The Specified Officer vide letter dated 7.3.2024 has stated that the units may be advised to follow the provisions of GST Rules, 2017 and Rules made under from time to time, to qualify the services provided by them as export of services.

The unit vide letter dated 26.9.2024 has stated that they are now proposing to set up VPN equipment to the co-location infrastructure facilities located at Mumbai (Yotta) which is a SEZ unit located in Navi Mumbai. Under the proposed model, the employees (working from home) shall connect to the VPN equipment located in the co-location infrastructure facility. This change is being undertaken as a step towards technological advancement by the company. It is also to state that no existing equipment will be moved from the SEZ units of the company, and all equipment required for the setting up this VPN facility will be newly procured and placed at the co-location infrastructure facility of Yotta SEZ unit.

The company has further stated that they are not going to avail any duty benefit and does not intend to procure any assets without payment of duty for setting up of the VPN facility at Yotta SEZ co-location infrastructure facility. They will procure all assets/equipment requirement for setting up of this VPN facility upon payment of duty.

The Specified Officer vide letter dated 22.11.2024 has stated that since the VPN facility proposed to be set up in Yotta (SEZ unit) is used only for secured connection in transmission of the data, it is opined that necessary permission for setting up of the VPN infrastructure facility of the third party co-locate service provider located in Mumbai (Yotta) may be allowed.

The proposal of the unit is placed before UAC for approval please.
